In the event of a tie between two or more entries, the tie will be broken by the number of goals scored by the players on the tied entries. For example: In the event of a three-way tie for first place, the three entries will be evaluated to see which one has the highest number of goals. The entry with the highest number of goals will be declared the winner, with the second highest total of goals being second place and the third highest being third place. Should entries be tied after the goals tie breaker, the plus/minus of each of the players on the tied entries will be tabulated. The highest plus/minus will be determined to have the higher placing. Should there be any entries tied following the tiebreaker, the prize money that they are tied for will be combined and the prize will be divided between the tied entries.
