On behalf of Team Yukon, we would like to extend our appreciation for the donation of \$5000 that was contributed by Yukon Energy. This funding was used to purchase new hockey equipment for our Female and Male Canada Winter Games Teams for the 2007 Canada Winter Games. This generous donation will help to offset the cost of developing and operating our Canada Winter Games Hockey teams.

To show our appreciation, we will publicly acknowledge the contribution that Yukon Energy has provided to our teams. We will do this through use of media and advertising on our website.

Sincerely,
